# SANITARY FIXING ESSENTIALS

A comprehensive range of bathroom fixings that meet the industries compliances and guarantee the highest quality of design. The Rawlplug portfolio covers more than 30,000 complimentary products, including fixings, fasteners and power tools. We are one of the world's leading manufacturers of specialist anchoring and fixing systems, with distribution on every continent.

**You can rely on the RAWLPLUG® brand  
- Trust and Innovation**

## WC OR BIDET SIDE FIXING KIT

Designed for side mounting  
WC and bidets

The bespoke fixing set is designed for fixing WC pans and bidets with a side-fixing hole. Easy-to-install WC fixings that give exceptional performance in solid base materials. Nylon bushes are supplied to protect the ceramic when tightening the screws. The plug has a two-way expansion mechanism, which provides a strong anchorage in solid base materials.

R-S1-KPUPBS

# BASIN FIXING KIT 8X100

Designed for secure  
mounting of washbasins  
to solid base materials

This kit is used to fix small washbasins to solid walls. It can also be used to fix washbasins to partition walls, where a timber frame has been built into the cavity. Nylon bushes are supplied to protect the ceramic when tightening the screws. The plug has a two-way expansion mechanism, which provides a strong anchorage in solid base materials.

R-S1-KPU120

# BASIN FIXING KIT 10X140

Designed for secure  
mounting of washbasins  
to solid base materials

This kit is used to mount large washbasins to solid walls. It can also be used to fix washbasins to partition walls, where a timber frame has been built into the cavity. The plug has a two-way expansion mechanism, which provides a strong anchorage in solid base materials.

R-S1-KPU141

# WC FIXING KIT SHORT PLUG

For fixing WC or bidet  
into shallow holes

R-S1-WCB-B

A Vertical fixing kit suitable for fixing WC or bidets into solid base materials. The kit can be used without the expansion plugs to fix into timber floors. Nylon bushes and caps are supplied to protect the ceramic when tightening the screws.

# WC FIXING KIT LONG PLUG

For fixing WC or bidet  
into deep holes

R-S1-WCB-F

A Vertical fixing kit suitable for fixing WC or bidets into solid base materials. The kit can be used without the expansion plugs to fix into timber floors. Nylon bushes and caps are supplied to protect the ceramic when tightening the screws.

# CORNER BASIN FIXING KIT

This set is suitable  
for fixing corner basins  
onto solid base materials

R-S1-CBF

The kit includes two main vertical brackets that are designed to clamp onto the basins back strap and fit to the wall. These brackets can be adjusted to the correct height/position required. The plugs have a two-way expansion mechanism that provides a strong anchorage in solid base materials. The screws can also be used to install into timber.

# SANITARY FIXING KIT

Suitable for fixing to  
plasterboard, solid walls  
and floors

R-S1-SFK

For installation to plasterboard walls use the brown plugs and for solid walls, use the grey plugs. Nylon bushes are supplied to protect the ceramic when tightening the screws. The plug has a two-way expansion mechanism, which provides a strong anchorage in solid base materials.
