

# Insulation Fixings Guide 2022

 **RAWLPLUG®**

EXPERT IN FIXINGS, FASTENERS AND TOOLS

## All around the world

in **100** years

Rawlplug is a global brand of choice. Every day, as we realise our vision, we keep our promise that we will provide our customers with the most up-to-date products they can trust. It is through our customers' choices that you can both admire the appearance of a building and use it safely, especially when it comes to prominent structures that are visited daily by thousands of people. Today, we can proudly say that in the last 100 years Rawlplug has become a silent hero of many construction projects all over the world.

260	MBA-08300 + MKC-85 OR MBA-SS-08300 + MKC-SS-85

The insulation fixing options listed are for guidance only and care should be taken to follow the insulation manufacturers guidance with regards to fixing patterns and the level of corrosion resistance required for the application. The use of a spre-ader washer is predominantly for mineral wool type insulation slabs. Where a phenolic or rigid insulation is being used, there may not be a requirement for the additional washer, but guidance should be sought from the relevant insulation manufacturer.

# TRAINING CENTRE

- Modern training facility where you can experience and get to know Rawlplug's entire offering, comprising products, services and training.
- Possibility to select and use a full range of our products under conditions that closely reflect their real-life on-site application.
- Unique opportunity to get to know latest trend-setting Rawlplug® releases that go beyond even the most highly specific expectations of our customers.

## CLASSROOM TRAINING

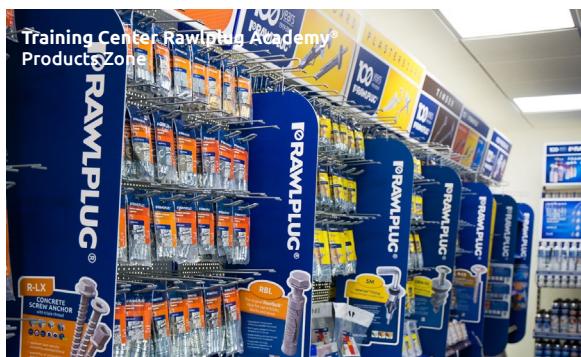

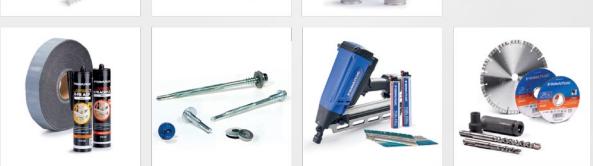

- Workshops devised in a way to consolidate and extend the knowledge acquired at e-learning courses.
- Meetings in small groups enabling the participants to talk about their typical and potential design and contracting challenges.
- Exchange of the most valuable experiences with market practitioners and experts responsible for shaping Rawlplug's product and service portfolio.
- Training modules designed and delivered by specialists with extensive experience in collaboration with designers, contractors and salespeople, responsible for developing individual product groups.
